Office Memorandum

Subject: User Manual on TSA/TSA Hybrid Reports

Reference is invited to Office Memorandum No. I-104001/2/2022-ITD-CGA dated 03.03.2025 issued by GIFMIS vertical of O/o CGA wherein User Manual on TSA and Hybrid TSA reports was issued with the objective of providing users with clear, structured guidance on accessing and utilizing key reports for effective fund monitoring and financial management under the Treasury Single Account framework.

2. In continuation to the above referred OM, and for the benefit of all stakeholders, the User Manuals on TSA and Hybrid TSA Reports are being re-issued for wider dissemination and use. These manuals have been developed to assist Ministries, Departments, and Implementing Agencies in monitoring and managing fund flows under the Treasury Single Account (TSA) and Hybrid TSA frameworks.

3. It aims to equip Ministries, Departments, and Implementing Agencies with the ability to track assignments, monitor expenditures, review drawing limits and analyse transaction statuses in real time.

4. The manual serves as a practical resource to enhance transparency, ensure compliance with financial norms, and support timely decision-making through accurate and actionable Management Information System (MIS) reports. It is intended to strengthen overall financial oversight and improve the efficiency of scheme implementation.

5. The manuals provide step-by-step instructions for tracking assignments, expenditures, and drawing limits, thereby enabling greater transparency and financial control at all levels.

6. All stakeholders are requested to ensure appropriate dissemination and utilization of these manuals to strengthen scheme monitoring and fund management processes.

7. All concerned entities are requested to ensure the manuals are circulated appropriately within their organizations and are used to facilitate compliance, transparency, and accountability in scheme implementation.

This issues with the approval of the Competent Authority.

1. Executive Summary

This report manual is designed to serve as a comprehensive guide for all stakeholders, including Program Directors (PD), Agency Admin, Data Approver (DA), and Data Operator (DO), involved with the TSA module. The primary objective of this document is to facilitate a clear understanding of the various reports available within the module and their practical applications for end users. By providing detailed insights into each report, this manual aims to enhance the efficiency and effectiveness of data management and decision-making processes.

The TSA module encompasses nine distinct reports, each tailored to meet specific informational needs and operational requirements. These reports include the Track Transaction Report, Expenditure Detail Report, Institute Wise Summarized Assignment Detail Report, Assignment Tracking report, Summarized Assignment Detail Report, Transfer Detail Report, Expenditure Rejected/Cancelled/Reversal Report, DSC Batch Status Report and Scheme Type Wise Status Summary Report. Each report is meticulously designed to provide valuable data that supports various administrative and analytical functions, ensuring that stakeholders can access and utilize the information they need to perform their roles effectively.

In summary, this manual not only outlines the structure and content of each report but also highlights their utility in facilitating informed decision-making and efficient resource management. By leveraging the insights provided in these reports, stakeholders can achieve a higher level of operational excellence and contribute to the overall success of the TSA module. This document serves as an essential tool for maximizing the potential of the available data and ensuring that all users can navigate and interpret the reports with ease.

1. Executive Summary

This report manual is designed to serve as a comprehensive guide for all stakeholders, including Program Directors (PD), Agency Admin, Data Approver (DA), and Data Operator (DO), involved with the TSA – Hybrid module. The primary objective of this document is to facilitate a clear understanding of the various reports available within the module and their practical applications for end users. By providing detailed insights into each report, this manual aims to enhance the efficiency and effectiveness of data management and decision-making processes.

The TSA – Hybrid module encompasses nine distinct reports, each tailored to meet specific informational needs and operational requirements. These reports include the Agency Hierarchy Report, Track Your Claim Report, Child Agency Wise Limit Vs Expenditure, Status of Agency Registration Report, Expenditure Detail Report, Transfer Detail Report, DSC Batch Status Report, and Agency Wise Month Wise Expenditure Report. Each report is meticulously designed to provide valuable data that supports various administrative and analytical functions, ensuring that stakeholders can access and utilize the information they need to perform their roles effectively.

In summary, this manual not only outlines the structure and content of each report but also highlights their utility in facilitating informed decision-making and efficient resource management. By leveraging the insights provided in these reports, stakeholders can achieve a higher level of operational excellence and contribute to the overall success of the TSA – Hybrid module. This document serves as an essential tool for maximizing the potential of the available data and ensuring that all users can navigate and interpret the reports with ease.

4. Introduction - TSA Hybrid

The Treasury Single Account (TSA) is a financial management system designed to consolidate government cash resources into a single account, thereby improving the efficiency and transparency of public financial management. This system allows all government revenues and expenditures to be processed through one primary account, typically held at the central bank, which helps minimize borrowing costs and enhances fiscal oversight. Following reports have been developed in PFMS for TSA module.

In (TSA), There is no provision for opening of RBI accounts by agencies beyond 02nd level, whereas many schemes have implementing agencies at 03rd level and beyond and therefore, the Ministries/ Departments are facing issues in smooth implementation of the schemes onboarded on TSA/CNA-M1. Further, RBI has also expressed inability for opening TSA Accounts beyond 02nd level as the number of implementing agencies is very large.

To overcome the issue mentioned above and enhancement in TSA for smooth implementation of the schemes with onboarding of 3rd level and further down the level agencies, Model-1A: Implementation through Hybrid Treasury Single account has been formulated in accordance with Ministry of Finance Department of Expenditure O.M. F. No. 3/(06)/PFMS/2023 dated 21st May, 2024. It solved the problem of parking of funds with third and below level agencies. Furthermore, the tracking of funds is possible at all levels of schemes.
